Do You Need Books to Expand Your Research?

Google Books at <http://books.google.com> is amazing!

- Be sure to search it for your subject area!
- Click “Advanced Book Search” and check “Full View Only” to limit the search to full-text results
- “PartialView” can also provide plenty of full-text

<http://www.amazon.com> or <http://www.bn.com> Use these easy search engine to get lists of books on your topic and to read excerpts, but try to get the books from your local library or buy from your local independent bookstore. Or, buy a less expensive used copy from an online independent bookstore at <http://www.bookfinder.com>

If you can't find what you need or you need more, ask yourself:

Who would care about this topic?

Where would they publish what they know?

Information provided by Professor Patricia Johnson and from *The Kovacs Guide to Electronic Library Collection Development* by Diane K. Kovacs, 2009.
