

### Tip #43 – Don't believe everything you see

Photographs used to be a highly credible source of factual evidence, but recent technological advances have made photographs among the most suspect. For example, this photo entitled "Next week's commute:"

#### Suggested class discussion questions:

- Can there be a photo of next week?
- How did the trees get up there?
- When is it legal to drive on the shoulder?
- How can you tell if a photo is credible? For an article on this, see [http://www.msnbc.msn.com/id/23342630/ns/technology\\_and\\_science-tech\\_and\\_gadgets/](http://www.msnbc.msn.com/id/23342630/ns/technology_and_science-tech_and_gadgets/)
