Taking CLEP exams? These websites appear to have free practice materials although they probably are selling something:

http://www.testprepreview.com/clep_practice.htm

<http://www.clepexampracticetests.com/>

<http://www.clepexams.com/>

<http://www.clepinfo.com/study-spot/>

For more sites like those, google “CLEP help”

It looks like CLEP is very proprietary and doesn't allow any of its prep books into database packages such as Ebrary Electronic Books.

Good luck on your tests!
