## Security Policy

### Annual Campus Safety Report & Crime Statistics (Clery Act)

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act was signed into law in November 1990. At the time it was known as the "Student Right to Know and Campus Security Act." It requires institutions participating in student financial aid programs under Title IV of the Higher Education Act of 1965 to disclose information about campus safety policies and procedures and to provide statistics concerning certain crimes that occurred on or near campus. In compliance with the Act, Cambridge College publishes and distributes this information by October 1st of each year in an Annual Security Policy and Crime Statistics Brochure. It is made available to current students and prospective students electronically and in print, and to College employees through the Office of Human Resources.

### Security Policy

Cambridge College strives to protect the rights, safety, health, and welfare of everyone in the Cambridge College community. Compliance with all city, state, and federal laws is expected of all members of this learning community. Anyone who is victimized by, observes, or has knowledge of a criminal action should report it immediately. The College will investigate and take prompt, appropriate action. If the complaint is of a criminal nature, the local police department will be notified right away. In a medical emergency, the College will call an ambulance to take the person(s) concerned to the nearest emergency room (at his/her own expense if not covered by health insurance).

Any act or threat of violence, indecent assault, or conduct that may endanger any person on College property is prohibited. Where there is reasonable cause to believe that a member of the College community has violated College regulations, the College will review the incident and take appropriate actions as necessary.

### Crime Prevention

Cambridge College is concerned about the welfare, security and safety of every individual at the College. However, maintaining a secure and safe campus environment can only be achieved through a cooperative effort of the entire College community. Community members are encouraged to use caution on our urban campuses. It is rare that criminal activity occurs on College property. Nevertheless, safety measures are essential in any urban setting. Keep your personal property safe. Lock your car. Do not leave your purse, keys, laptop, or other valuables unattended.

*Please see related safety and security policies in the Academic Catalog under "Learning Community Rights & Responsibilities (pp. 210-213 in the July 2009 catalog). Please go to [Web Catalog](#) to view College policies on:*

- Alcohol & Drugs
- Firearms/Weapons
- Hazing
- Harrassment & Sexual Harrassment
- Security

Cambridge College students are working adult learners. The College serve the commuting students and does not maintain campus residence halls, except during the summer residency program (National Institute for Teaching Excellence or NITE). The College takes the necessary steps to ensure the safety of our community through our published policies, reporting activities, relationships with local police, publications, and timely communications. Students and employees should be aware the College does not provide education programs related to campus safety procedures; education programs about drug or alcohol abuse prevention; or education programs related to the prevention of sexual assault.

### How to Report a Crime

The College strongly urges every member of the community—faculty, staff, and students—to report any crime promptly to the College security authorities and/or your local police department (911). Criminal actions may also be reported to any professional staff member who will then contact campus security. Victims of crimes are encouraged to report these matters to local police; Cambridge College may assist any student in reporting crimes, if desired.

### Department Personnel and Relationship with Local Authorities

The Cambridge College campus security staff at the main campus support all of the non-adjacent campus buildings in the City of Cambridge. The College maintains security staff at the Lawrence Regional Center, Lawrence, MA and the Springfield Regional Center, Springfield, MA. Additionally, three regional centers (Augusta, GA; Chesapeake, VA; and San Juan, PR) are located in buildings that employ security

staff. Security staff do not carry firearms nor do they have police powers of arrest. However, the security staff has close and effective working relationships with local police agencies who can provide these services to the campus in a timely fashion, as needed. The College works with local police agencies where all of the regional centers are located.

### Timely Warning

In the event that a situation arises, either on or off campus, that, in the judgment of the Vice President for Finance and Administration, constitutes an ongoing or continuing threat, a campus-wide "timely warning" will be issued. The warning will be issued through the College e-mail system to students, faculty, and staff. Additionally, notifications will be posted on digital message boards and other strategic public locations within each of the appropriate buildings.
