Awards:	<ul style="list-style-type: none"> ▪ ASEGRABCI Medal 2002 ▪ Outstanding research medal 2002

Biographical Sketch:

Prof. Domínguez began her career as a Spanish high school teacher in Carolina. While working she was able to see the importance of quality education and the role that libraries play in education. After her experience in the classroom, she took a position as a librarian assistant at the School of Plastic Arts of Puerto Rico, where she discovered new ways of teaching, researching, gathering, organizing and making all the information available. This position allowed her an opportunity to work with artist students, artists, and other professors.

In 2003, she took a position at the library of the University of Puerto Rico in Carolina, where she developed and still coordinates the Information Literacy Program. Through her work she is able to plan, and offer different workshops, classes and conferences integrated into the academic curriculum to develop the students' information skills. Prof. Domínguez is finishing her PhD in Information Science; her research will be focused on learning communities in a library environment.
