

Master of Education With Concentration Options

# Counseling Psychology

36 credits • 3-4 terms full time

**COUNSELING PSYCHOLOGY** is a pre-licensure graduate program for students planning to enter the practice of mental health or improve their skills and professional qualifications. The program has a strong commitment to an evolving multicultural society.

**Learning Outcomes** — Students learn the principles and best practices of counseling including various psychotherapeutic techniques for work with individuals, families and groups; group counseling, and consultation to organizations and communities. They study human development, dysfunctional behavior and mental illness, strategies for prevention and treatment of substance abuse and domestic violence. They become familiar with community resources for referrals. They study research design and methodology. They become familiar with state regulations applicable to mental health practice.

**Careers and Further Study** — Graduates may qualify for employment or advancement in mental health agencies. They will be eligible to continue study towards mental health licensure at the CAGS level.

## Academic Requirements

Counseling Psychology core courses, practicum, field experience .	18
SOPC electives and concentrations. . . . .	18
