

Master of Education With Elective Concentrations

Mental Health Counseling

60 credits • 5-6 terms full time

Mental Health Counseling provides graduate level professional training for mental health counseling licensure, with a strong commitment to an evolving multicultural society. Students are prepared to meet the licensing standards of the Massachusetts Board of Registration of Allied Mental Health Professionals.

Learning Outcomes — Students learn and apply the principles and best practices of counseling, including various psychotherapeutic techniques for work with individuals, couples, families and groups; group counseling, and consultation to organizations and communities. They study human development, dysfunctional behavior and mental illness. They learn to assess, diagnose and treat within the scope of the counselor’s practice, and become able to utilize community resources for referrals. They learn and apply strategies for prevention and treatment of substance abuse, domestic violence, the spectrum of mental illnesses; and learn to use psychoeducational techniques aimed to prevent such disorders. They study research design and methodology. They become familiar with state regulations applicable to mental health practice and licensure.

Academic Requirements

Mental health core courses, practicum and field experience.	42
SOPC electives and concentrations.	18
CCP592 Exit Portfolio	non-credit
Total	60

Elective Concentrations

The core program provides the academic preparation for mental health counseling licensure. Students may choose one or two concentrations to earn additional credentials and knowledge. The program of study may not exceed 60 credits.
